

Proctor Silex® 3 Quart Simplicity™ Pressure Cooker

Compact and Versatile – Enjoy a three-quart multi-function pressure cooker that effortlessly prepares meals for up to three people and takes up less counterspace, especially for those with smaller kitchens. The sauté button lets you prepare the entirety of your meals right in the nonstick pot. Place some fresh vegetables on the lift-out roasting/steam rack to create a balanced meal.

Easy to Use – Remove the guess work by using simple direct cooking modes. Choose from pressure cook, slow cook, sauté, steam or warm modes. Set your desired cook time and the pressure cooker will alert you with an audible beep when your food is ready. With pressure cooking, you'll get dinner on the table up to 70% faster.

Convenient Features – The True Slow™ technology with two heat settings ensures a gradual rise in temperature for classic slow cooker results. Your food won't overcook and will come out just the way you expect. The pressure cooker includes a lift-out roasting/steaming rack for meats or vegetables.
